ARRIVAL PROCEDURES

PASSENGERS AND CREW ARRIVALS

IMMIGRATION AND CUSTOMS PROCESS

Upon arrival, passengers will be greeted by a Universal Aviation staff member as they disembark. Passengers and crew will be transported in a Universal Aviation vehicle to the General Aviation Terminal. Meanwhile, the aircraft will be inspected by PCD (Police control of drugs) and SVA local Police. Passengers and crew luggage must be offloaded and taken to customs. You will not be allowed to leave any bags or luggage in the aircraft.

After all, passengers and crew clear customs and immigration, they will be allowed to leave the airport. A staff member will escort them to meet their ground transportation vehicle by the entrance of the General Aviation Terminal.

It can take up to 20 minutes to disembark the aircraft, pass through customs, and leave the airport in their ground transportation vehicle. We will stay in contact with the ground transport driver to ensure passengers have a smooth pick-up.

CUSTOMS DECLARATIONS

Passengers who bring items that exceed \$500 in value must be declared. The additional items could be subject to import duties. If passengers do not declare the items of value worth more than \$500, they will receive a stamp on their passport indicating that they took advantage of the \$500 exemption. Customs have the legal right to retain the merchandise and transfer it over to a bonded warehouse, where you will have to go through the customs import process. The same applies if you try and bring with you items that require a Costa Rican health permit.

According to all of the above, we recommend that passengers make the declaration of the items per person.
