

SBJH

Universal Aviation Brazil - São Roque

As the first state-of-the-art international airport in Brazil dedicated exclusively to general aviation, SBJH is an attractive modern gateway for travelers accessing Brazil and visiting the São Paulo area.

SOME GREAT REASONS TO CHOOSE US:

- For business aircraft travelers, São Paulo Catarina International Executive Airport offers an unprecedented level of comfort, luxury, and privacy – with far less congestion than other Sao Paulo area airports.
- With a 1.6-mile runway and ample hangar space, we are able to support the largest of executive jets.
- With easy access to the capital’s main business hubs, Catarina is only 38 miles from the Presidente Castello Banco Highway or a short 14-minute helicopter ride to São Paulo. The 24-hour non-restrictive operational hours make it convenient to access the Helipad at any time.
